

Compliance Alert

March 17, 2010

Group Benefit Services, Inc. is prepared for HITECH (Health Information Technology for Economic & Clinical Health Act)

GBS is implementing Voltage, an email encryption tool, that will put us in compliance with the latest HIPAA Privacy and Security requirements as passed in the American Recovery and Reinvestment Act of 2009 (ARRA).

This tool will encrypt an email and protect PHI (Personal Health Information) that is included in our emails when we send information to our brokers and/or our clients.

From this point forward, you will receive emails that are encrypted if the email includes PHI.

Throughout the rest of this document is information that explains how to register for your 'key' with Voltage so that you will be able to access the information as we email you.

Voltage SecureMail – Recipient Registration

You will receive this email below that contains an attachment similar to the one next to it below. The attachment may be called "message_zdm.html", simply double click on it.

 **Network**

This is a secure, encrypted message.

To view this secure message:

Desktop users - Open the attachment (**message_zdm.html**) and follow the instructions.

BlackBerry users - Install the [Voltage SecureMail for BlackBerry](#) application.

Other mobile users - Forward this message to: zdm@vsn.voltage.com and check your inbox for a link to view the message.

Protected by the Voltage Security Network - [Learn More](#) - [Secure Your Own Email](#)

Confidentiality Notice: This email, including any attachments, is confidential and intended solely for the use of the individual(s) or entity to whom they are addressed. If you have received this message in error please notify the sender.
